Sistem de control

Sistem de control. Max capacity:1.5kg, 3kg, 6kg, 15kg, 15kg, 30kg, 60kg. Readability:0.5g, 1g, 2g, 5g, 5g, 10g, 20g. Tare range:-1.5kg, -3kg, -6kg, -15kg, -15kg, -30kg, -60kg. Pan size:150x200mm, 150x200mm, 250x300mm, 250x300mm, 410x410mm, 410x410mm, 410x410mm. Working temperature: -10 grade, +-40 grade. Output signal:RS232, RS485. IP rating: IP66,IP67

Descriere

Scale designed for fast and precise control of small loads. Also applicable as a single control stand installed in production line. This scale is wholly manufactured in stainless steel technology, measuring indicator is equipped with big, readable and backlit LCD display. Tare of the load can be inserted either through weighing of load or through typing in from the scale keyboard. Stable measurement result is obtained very quickly, i.e. (0,3-0,5 sec.) depending on mass of measured load. Scale is equipped with three diodes indicating the set thresholds of weighing process. Switching on of one of the diodes indicates in which weighing range the load is placed. Scales for +/- control can operate as multi stand systems.
