DINI ARGEO
Scales - Weighing systems

DBMANAGER

DBMANAGER: PC software designed for quickly compiling the databases of your scale

PC software which facilitates and speeds up the compiling of the scale's databases, with the possibility to import/export them in a Excel format.

The best solution
for advanced industrial
applications

STRONG POINTS

- Easy to configure: in a few minutes you can program and transmit dozens of articles, keeping them even in memory.
- Security: you can set a protection password to protect your entries data and to prevent accidental changes.
- Customisation: you can insert your logo and translate the user interface directly in your own language (.ini file).
- Management of the main communication modes: RS232, USB, Ethernet-Wifi (TCP-IP).

MAIN FUNCTIONS

- Self-identification of the connected indicator
- Configurable fields of each database
- Receive or Transmit Databases
- Import / Export to Excel file

SUPPORTED INDICATORS AND PROGRAMS

- Supported indicators:
