Platforma cantarire solutii modulare pt verificare statistica.

Platforma cantarire solutii modulare pt verificare statistica. Producator: Dini Argeo.

Descriere

.

- Statistical check functions, for internal use or according to legal norms: - Statistical check functions selectable as CUSTOMIZED or ACCORDING TO LEGAL NORMS (as provided for by the directive N. 76/211/EEC) with acceptance/refusal criteria of the lot under examination. - DESTRUCTIVE or NON DESTRUCTIVE legal control (selectable). - Calculation and printing of the lot outcome and of the standard deviation. - Quantity check in ml by entering a density coefficient for each article. - Management of production lines: one can manage up to 10 products simultaneously on one or more scales (up to 1 scale for each line).
- Up to 5 independent connectable approved scales, that allow to check with the same weighing system all the weight groups required by the law.
- Selfweighed, presettable tare (direct or calculated), manual or automatic tare; unlocked automatic tare function at the end of weigh operation.
- Totalization function: in loading, manual or automatic, upon weight stability or only if within tolerante.
- 4 levels of totals zeroable and printable in an independent way: partial total, general total, grand total, total by article.
- Selection of visualized data on the graphic LCD display (totals, progressives, weight...).
- Completely configurable keyboard functions according to the customers' needs.
- 15 configurable and printable text ID`s containing 16 characters, for example: Code, lot ID, operator ID, shift number.
- Database of 1000 articles with 3 alphanumeric description of 20 characters, density coefficient, nominal weight, three +/- tolerance levels (T1, T2, T3), linked tare.
- Completely programmable printout.

Optional power supply cords
