Convertor MODRADIO

Convertor MODRADIO. Producator: Laumas.

Descriere

MODRADIOIP65 for data transmission: The system consists of two MODRADIO: the fi rst transmission module is connected to weight indicator/transmitter via RS232/RS485 serial output; the second module receives the data via radio and is connected to a remote display or PC/PLC.

MODRADIOCELIP65 for load cell signal transmission: The system consists of a TXRADIO transmitter module (mono-bidirectional) or several TXRADIO modules (multidirectional) and a MODRADIO receiver module. TXRADIO is connected to a weighing system (one or more load cells) and transmits the signal via radio; MODRADIO receives the signal and transmits it to PC/PLC or weight indicator via RS232/RS485.
