Dispozitiv testare cuplu DA

Dispozitiv DA Producator: Kern Capacitate: 1Kg,5Kg,10Kg

Descriere

- Ideal for torque testing of bottles and other packaging with screw tops
- Quick pin system: The four bottle mounts (holders) are pushed in, instead of being screwed in, to save time. This allows you to reconfigure quickly for other bottle sizes
- Metal housing for durable usage in harsh environmental conditions
- Capacity display: A bar lights up to show how much of the measuring range is still available
- Back-lit LCD graphic display
- num/1] Rubber feet with anti-slip feature
- Scope of supply: four Quick Pins (bottle mounts) with rubber mantle, sturdy carry case
- Internal data memory saves up to 500 measurements. The content of the memory can be transferred to the PC using optional software
- USB and RS 232 data interfaces to the PC included
- Peak Hold Mode to capture peaks
- Can be used in both directions of rotation
- Function to set limits, programming of Max./Min., in pull and push direction, with output of audible and optical signal. Ideal mode for efficient and accurate testing of standard parts
- AUTO-OFF function to preserve the battery
