KSB2FI

"KSBFI": STAINLESS STEEL FEET FOR SBxx LOAD CELLS UP TO 2500kg

Stainless steel semi-articulated feet designed in order to obtain the best weighing performances, particularly suitable for creating scales with 4 load cells. Extremely compact and easy to install, the feet minimize the height of the platform and ensure a perfect decoupling of the lateral forces during the weighing operation.

Working in cooperation with:

The best solution
for advanced industrial
applications

MAIN FEATURES

- Applicable on SBK and SBX load cells up to 2500kg.
- Designed especially for use on 4-cell platforms.
- Perfect decoupling of the lateral forces during the weighing operation.
- Extremely compact and simple to install, minimizing the height of the platform.
- Adjustable height.
- Completely AISI304 stainless steel construction.
- Non-slip rubber built into the base of the foot.
- Fitted with anti-vibration gasket.
- Fitted with adjustable locking.
