Type 55-01-07H Rocker System

30 t and 40 t

Rocker System 55-01-07H with RC3 Load Cell

Product description

Flintec load cell supports are designed to prevent unwanted forces from affecting load cell performance.

The type 55-01-07H is a self aligning rocker system, combining excellent load introduction with low profile design.

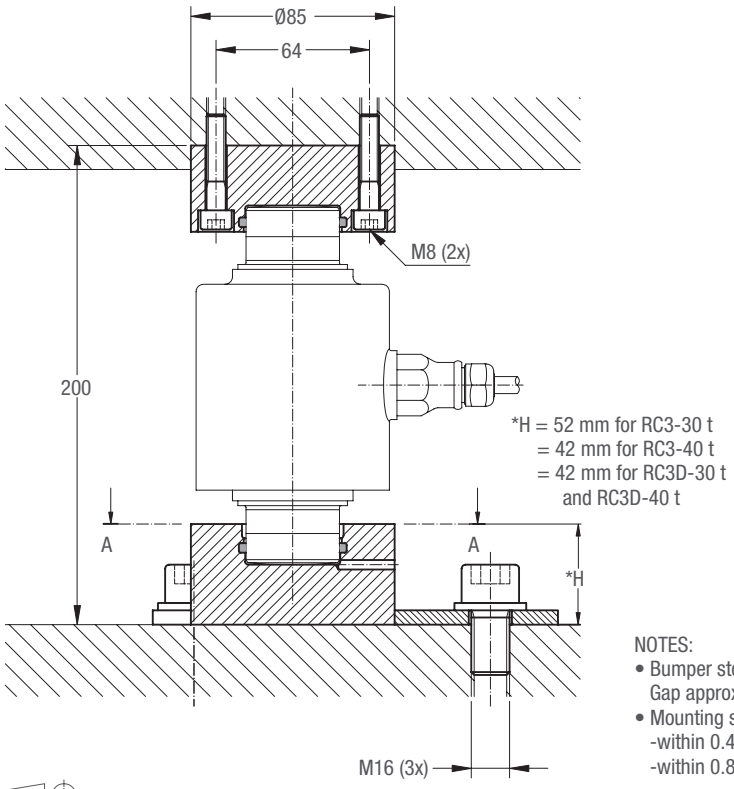

Especially designed for the RC3/RC3D load cells.

Material: steel, zinc plated.

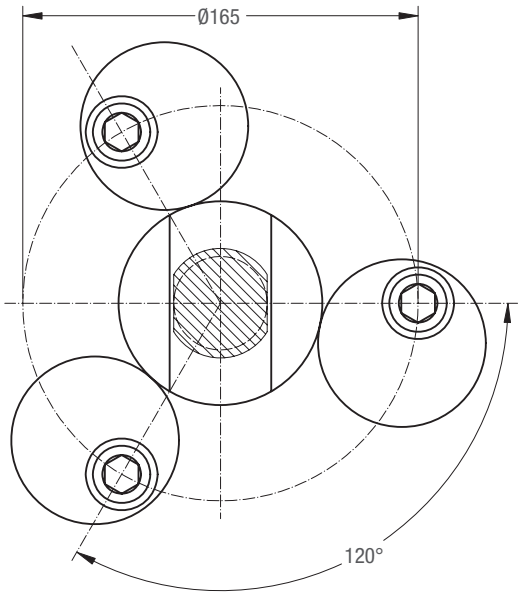

Key Features

- Capacity 30 t and 40 t
- Low cost
- Very easy to install
- Especially designed for weigh bridges
- W&M certified

Dimensions (in mm)

*H = 52 mm for RC3-30 t
= 42 mm for RC3-40 t
= 42 mm for RC3D-30 t
and RC3D-40 t

A-A

NOTES:
- Bumper stops are required. Gap approx. 3...5 mm.
- Mounting surfaces to be horizontal
  -within 0.4/100 for legal for trade applications,
  -within 0.8/100 for general applications.

CAD files for customer's own application drawings are available for download from the Flintec homepage.

Remark: Ground cable (L=350 mm) to be mounted with screws M10 x 20.
