EPWL "LOGISTIC" PALLET-WEIGHING FLOOR SCALES SERIES

EPWL with optional column

NOTES: weight indicator is suitable for installation on the table, column, wall or attached to the structure.

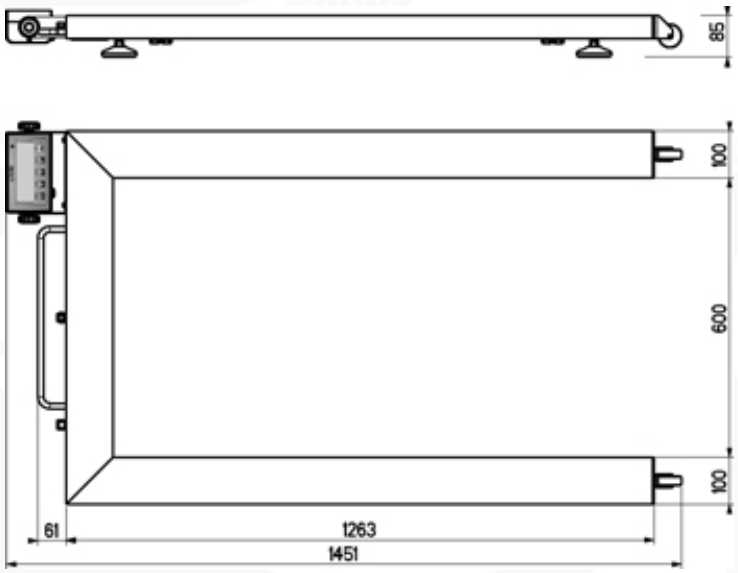

Quick and accurate pallet weighing scales, easy to use and transport. Integrated extractable weight indicator complete of stretchable connection cable which may be easily positioned according to one's weighing requirements. Functions with a built-in battery with extractable drawer for easy substitution. The automatic multirange capacity allows the maximum accuracy on the lower weight values, mantaining the same load capacity. Available also in dual range APPROVED version, for legal for trade use.

MAIN FEATURES

- Weight indicator with support bracket having an adjustable inclination, for use on the table, column, or wall.
- **LCD 25mm backlit display** with 6 high contrast digits and icons for indication of active functions.
- **ABS IP54 case**, easy to clean and resistant in harsh and corrosive environments.
- Waterproof 5-key functional keypad.
- **Functions with 4 shear beam 1000 Ohm aluminium load cells** approved according to OIML R60 C3 standards (3000+3000 divisions), IP67 protection degree, able to handle double the nominal load.
- Carbon steel oven-fire painted bearing structure, complete of adjustable feet.
- Level, wheels, and transport handle.
- Connection cable to the indicator, 3 m long.
- Accuracy: +/-0,05% of the capacity.
- Programmable automatic switch-off.
- Digital calibration and Set-Up from keypad or from PC through DINITOOLS.
- Power supply from 5 to 12 Vdc
- Standard fitted with extractable drawer for housing 4 AA batteries (not included), which may be rechargeable, and standard connector for connection to external power adapter (if connected, it excludes the battery power).

DIMENSIONS mm

- Values in mm

SELECTABLE AND KEYPAD FUNCTIONS

- Clearing; automatic and manual tare, print.
- **X 10 High resolution visualisation.**
- **Net/Gross or lb/kg conversion.**
- **Accumulation.**
- **Formula weighing.**
- **+/- Checkweighing.**
- **Percentage weighing.**
- **Alibi, for approved weight transmission** (optional).
- **Counting.**
- **Input/Output.**

I/O SECTION:

- RS232/C bidirectional port on RJ connector (or USB optionally) for quick or RS485 connection, configurable for PC, PLC, additional remote display.
- RS232/C bidirectional port for connection to printer or labeller.
- IR input for remote control management.

AVAILABLE ACCESSORIES

- Remote control.
- Support column for indicator.

Available models

Code	Dimensions (LxPxH)	Max Capacity kg	Division kg	CE-M2 Division kg

EPWL	1260x800x85	600/1500/2000	0,2/0,5/1	-
EPWLM M	1260x800x85	1000/2000	-	0,5/1

Options only available at time of order

Code	Description
OBTPRB	Thermal printer stand alone table version, with connection cable for RS232 port and power adapter included.
DFTL	Remote control for use up to 8 m, configurable as a single tare key or four keys
DFCLK	Real Time Clock (Time/date)
ALMEM	Alibi memory (fiscal memory) with time/date; max. 120.000 weighs.
RSCBRJ	RS232/C connection cable (1.5m long) to PC including female 9-pole connector and RJ connector
USBMB	USB interface, as an alternative of the standard connector, for quick connection of the indicator to PC
USBCABMB	USB cable for connection between indicator and PC (to be used with USBMB)

Accessories

Code	Description
DGT60BC	Weight indicator-repeater with 60mm LED display, 2 inputs, 2 outputs, 1 RS232 bidirectional port and 1 RS485 bidirectional port, with 110-240 Vac internal power adapter
CSP42I	Stainless steel support column for the DFW, 3590, TRS series' indicators. Dimensions 520 x 527 mm, 1026 mm high, tubular Ø = 42 mm.
LP542S	Thermal labeller with peel-off system: resolution of 8 dots/mm; max. label width of 112 mm; max. speed of 127 mm/sec; RS 232/C, parallel, and USB interface. Printing of the most common BARCODES. Power supply with external 100/240 Vac power adapter. Connection cable of 1,5 m.
UKPLUG	Power adapter from Schuko to BS1363.
