LOW PROFILE PLATFORM SCALE MOD. B.SP.4PR

FINISHES:
- PAINTED
- STAINLESS STEEL

- Single structure steel platform scale designed for aboveground installation.
- The low profile makes it ideal for weighing trucks. In fact, the unit comes standard with two gentle-grade ramps approximately 60 cm in length.
- The weighing is performed by 4 bending load cells with IP 68 protection.
- The cells are mounted to a special self-centering foot that allows the platform to properly determine weight even for irregular loads.
- The static overload resistance is 100% of the capacity.
- The connection cable for the weight indicator is approximately 5 m.
- Includes ramps
- Platform height: 4 cm

OPTIONAL ACCESSORIES

- RAMP 80 X 90
- RAMP 100 X 90
- RAMP 125 X 90
- RAMP 150 X 90
- Stainless COVERING 80 X 80 e 100 X 100
- Stainless COVERING 100 X 125
- Stainless COVERING 125 X 125
- Stainless COVERING 125 X 150
- Stainless COVERING 125 X 200 e 150 X 150
- Stainless COVERING 150 X 200 e 150 X 250
